

TANMAY KATARIA

Mississauga, ON | 647-410-4112

Email - tanmay.kataria@georgebrown.ca | [Portfolio: portfolio.tanmay.online](https://portfolio.tanmay.online)

OBJECTIVE

Applied A.I. Solutions Development student at George Brown Polytechnic with a foundation in machine learning, Python, SQL, and data analysis. Passionate about applying AI and problem-solving skills to develop innovative, real-world solutions. Seeking a Machine Learning/Artificial Intelligence co-op where I can contribute to AI research and product development while expanding my technical expertise in a collaborative, fast-paced environment.

HIGHLIGHTS OF QUALIFICATIONS

- Applied knowledge of machine learning and AI, with hands-on experience developing and evaluating classification and clustering models using Python and Scikit-learn.
 - Experienced in Python-based ML workflows, using Pandas, NumPy, Scikit-learn, Matplotlib, and Jupyter Notebook for data preparation, model development, visualization, and evaluation.
 - Developed NLP projects involving text preprocessing, TF-IDF, Bag of Words, Word2Vec, sentiment analysis, and text classification.
 - Applied computer vision and image processing techniques using OpenCV through image transformation and webcam-based projects.
 - Developed audio processing applications involving audio-to-PDF, PDF-to-audio, and silence removal.
 - Created Tableau dashboards using stock market data and worked with Python, Pandas, and MySQL on data processing and ETL projects.
-

TECHNICAL SKILLS

Programming & Data: Python, SQL, Pandas, NumPy, Tableau, TabPy

Machine Learning & AI: Scikit-learn, NLP, Computer Vision, Image Processing, Audio Processing, Model Evaluation

EDUCATION

George Brown Polytechnic, Toronto, ON

May 2026 - April 2027

Applied A.I. Solutions Development Program (Postgraduate)

Academic Projects:

Predicting Adolescent Depression from Social Media & Lifestyle Patterns

Python | Scikit-learn | Random Forest | Logistic Regression | Decision Tree | SMOTE

- Built machine learning models using Random Forest, Logistic Regression, and Decision Tree to predict adolescent depression from social media and lifestyle data.
- Performed data preprocessing, SMOTE-based class balancing, GridSearchCV hyperparameter tuning, and model evaluation to improve prediction performance.

Sales Data ETL & Reporting Pipeline

Python | Pandas | MySQL

- Developed an ETL pipeline using Python and Pandas to clean, transform, validate, and normalize business data into a 3NF MySQL database.
- Created operational and executive reports to visualize sales performance and support business decision-making.

Delhi University, New Delhi, India

November 2021 - June 2024

Bachelor of Science in Computer Science

PROFESSIONAL EXPERIENCE

My1Hour | Social Media Manager , India

Feb 2025 - Dec 2025

- Produced AI-assisted digital content and marketing campaigns to support brand awareness across social media and residential communities.
 - Collaborated with cross-functional teams to develop campaign strategies, promotional materials, and digital content.
 - Designed and delivered digital assets, including social media posts, promotional visuals, and marketing materials for multiple campaigns.
 - Utilized AI-powered tools to streamline content creation workflows and improve the efficiency of campaign execution.
-

VOLUNTEER

Guardian's Best Animal Rescue Foundation | Graphic Designer, Toronto, ON

June 2026 - Present

- Designed event posters, dog adoption posters, and promotional materials to support adoption drives and community awareness campaigns.
- Assisted with event setup and takedown, organized event stalls, and supported the coordination of community events.
